

Flanged connections

Including assembling. Flanges are fitted according to your specification. The diameter in the table below is the flange pipes external diameter. For flanges assembled on the tanks side wall, we only recommend flanges up to DN150 (160 mm external diameter). All according to DVS 2205-2.

Variants	
S60019	Connetion flanged DN20 PN16, mounted
S693191	Connetion flanged DN25 PN16, mounted
S693201	Connetion flanged DN32 PN16, mounted
S693211	Connetion flanged DN40 PN16, mounted
S693221	Connetion flanged DN50 PN16, mounted
S693231	Connetion flanged DN65 PN16, mounted
S693241	Connetion flanged DN80 PN16, mounted
S693251	Connetion flanged DN100 PN16, mounted
S60027	Connetion flanged DN125 PN16, mounted
S60028	Connetion flanged DN150 PN16, mounted
S60029	Connetion flanged DN200 PN10, mounted
