

CPX Septic tank 2200L RM

The 3 chambers in the septic tank provide an extra-long sedimentation distance, and a high separation capacity (0.11 grams). The flexible, robust design means that CPX Septic Tanks are suitable for most ground conditions. Can be installed at depths of 2–2.9 metres. The inlet and outlet can be located on both short and long sides of the septic tanks. Can be fitted with integrated pump well, available as accessories.

This tank is made from at least 80% recycled material (post-industrial) and thus has approximately 35% lower carbon footprint than a corresponding product made from non-recycled material.

Art.nr: 230213

Specifications	
Material	PE
Bottom shape	Straight
Lid type	
Color	Black
Volume (L)	2200
Length (mm)	2350
Width (mm)	1700
Height (mm)	1350
Weight (kg)	200
Sludge volume (L)	1100
Wet volume (L)	2200
Tollstatistical code	3925100000
GTIN	7090046761075
Delivery packaging	1 pcs/pall
Recycling	 HDPE

Characteristics

Customizable containers

Recyclable
